COMPLETED PROJECTS

TELECOMMUNICATION PROJECTS:

Our firm has been performing work in the telecommunications industry since 1982. Most of this work involves new buildings, building additions and/or interior renovations at operational telecommunication central offices, data centers, administration offices, and service facilities. Many of these locations are very sensitive to dust, the elements, and disruptions, thus our work must be performed to maintain the telecommunication services that these facilities provide. Other projects consist of site alterations and interior alterations for support personnel. Projects range from minor renovations to \$3.5million in size.

BANKING:

Our firm started providing construction services for the banking industry in 2004, beginning with Hibernia Bank, which was purchased by Capital One in 2006. We have completed approximately 18 new locations since 2004, valued at ±1.6 million per each location, many renovation/repair projects and corporate rebranding. In 2009, we added Viewpoint Bank as a client.

RETAIL PROJECTS:

Our firm performed work in the restaurant and retail industries from 1980 to present. During this time, we completed projects for the following clients:

SOUTHLAND CORPORATION: We completed approximately 30 new 7-11 stores and remodeled 100 existing stores. During 1993, we were involved in the remodel program; closing a location for a \$50,000 renovation in a 72-hour period; completing 28 stores during this remodel program.

McDONALD'S CORPORATION: We completed approximately 5 new restaurants, 4 Play Place additions and 20 renovations.

WAL-MART CORPORATION: We completed approximately 10 renovations and 2 garden center projects, with contracts to \$450,000 in size.

D/FW AIRPORT PROJECTS:

Our firm performed work at D/FW Airport from 1987 through 1998. During this time, we completed projects for the following clients:

DOBBS HOUSES, INC.: These projects were high-end finish out of spaces for restaurant and retail shops, with contracts up to \$500,000 in size. Marriott/Host acquired Dobbs in 1993.

AMERICAN AIRLINES: Mr. Larry Telkamp 817-967-1364
Approximately 20 projects for American Airlines and American Eagle. These projects were alterations to the airport terminals for airline operations, Admiral's Club renovations, and concrete demolition/alterations at airline taxiways, with contracts up to \$350,000 in size.

After the loss of Dobbs as a client, we lost our yearly presence and continuation of work at D/FW Airport, which is essential in adequately performing this work. We continue to pursue work for American Airlines at their corporate campus, but not at the airport.
